How are emergencies at nuclear power plants classified?

The federal government established four classifications for emergencies at nuclear power plants. In order from the least to most serious, they are:

- **An UNUSUAL EVENT** indicates a potential problem with the operation of the plant. Officials are notified, but no public action is necessary.

- **An ALERT** indicates an event that could reduce the plant’s level of safety. Any release of radioactivity would be a small fraction of the federal guidelines. Residents should monitor the situation on television or radio.

- **A SITE AREA EMERGENCY** indicates a problem that substantially reduces the plant’s level of safety. Releases of radioactivity outside the plant site would not be expected to exceed federal guidelines. Residents should monitor the situation on television or radio.

- **A GENERAL EMERGENCY** indicates a problem affecting safety systems in the plant that could lead to a release of radiation that would exceed the federal guidelines outside the plant. Protective actions may be ordered for some areas. Residents should monitor the situation on television or radio.

Sources of Radiation Exposure in the United States

[Diagram showing percentages of natural and man-made sources of radiation exposure in the United States]

- Natural Sources - 50%
- Man-Made Sources - 50%

The information in this booklet is updated periodically. Visit www.rocklandipready.com or the App below for updated information.

Keyword: R U Ready or Indian Point
How would I be notified of an emergency at Indian Point?

Special emergency sirens that produce a continuous, four-minute tone would alert people within 10 miles of Indian Point to tune to an Emergency Alert System (EAS) station for information about an emergency at Indian Point. If you hear the continuous, four-minute tone, listen to one of the EAS stations listed in this booklet for official information on what you should do. These sirens are tested periodically throughout the year. Siren tests are announced in advance through local news media.

In addition to the sirens, a high-speed telephone service, an e-mail alerting service or web-based services could be used to notify and inform the public.

Anyone can sign up for these services at www.rocklandipready.com

How would I find out what I should do in an emergency?

Officials would use the Emergency Alert System (EAS) radio and television stations to provide information and instructions to the public. EAS stations in this area are listed on the next page. These stations would be the official source of information during an emergency.

Different areas could be directed to take different actions, so instructions will be provided in terms of the communities or areas within 10 miles of Indian Point. These areas are shown on the map attached to this booklet. Find your location on the map and listen carefully for information concerning your area.
Tune in for information

If you hear the emergency sirens, tune in your radio or TV to an Emergency Alert System (EAS) station for further information.

**Remember:** *The sounding of the sirens is not a signal to take any actions other than to listen to your radio or TV EAS station.*

## EAS Stations

**Primary EAS Radio Stations for the Hudson Valley**

</tr>
</tbody>
</table>

Note: All radio stations operate 24/7.
What might I be instructed to do?

You could be instructed to shelter-in-place, to evacuate, to take potassium iodide (KI) or to take no action. Officials would base any emergency instructions on the situation at Indian Point and where people are most likely to be affected. People in one area might need to take one action, while people in another area might take a different action or no action at all.

In all cases, avoid using telephones and cell phones to prevent overloading the system and interfering with emergency use.

Use the Emergency Supplies Checklist on the back of the attached map to help prepare your family plan in case you need to Shelter-in-Place or Evacuate.

Shelter-in-Place

If your area is instructed to shelter-in-place, you should remain indoors and limit the ways outside air can enter. You should:

- Keep family and pets inside
- Close windows and doors
- Turn off air conditioners and ventilation systems
- Extinguish fires in fireplaces and close dampers
- Listen to radio or TV for emergency information

Evacuation

Evacuation is a protective action strategy involving the orderly movement of people away from an actual or potential hazard. If your area is instructed to evacuate, you should gather the things you would need for a three-day stay and leave promptly.

Where should I go if I have to evacuate?

You should go to the home of a friend or relative or other location outside the 10-mile area around Indian Point using the timeliest route. If you do not have another place to go, you can go to the Reception Center assigned to your area using the routes shown on the attached map. Temporary shelters will be available for those who need a place to stay.

If there has been a release of radioactive materials from Indian Point, monitoring and decontamination will be available at Reception Centers.
In an evacuation:

- Be certain that your area is one being ordered to evacuate. Do not evacuate unnecessarily.
- Remain calm, but act promptly
- Do not use the telephone to avoid overloading the system
- Contact neighbors directly to ensure they are aware of the emergency instructions
- Offer a ride to anyone you know who might not have a car
- Close windows and vents in your car and do not use the air conditioning until you have left the area
- Take one dose of Potassium Iodide (KI) if instructed to do so

Bring with you:

- clothing and blankets or sleeping bags
- prescription medicines
- personal items such as shaving kits, soap and cosmetics
- formula and other supplies for children and infants
- your checkbook, credit cards, cash and important papers
- first aid kit: gauze, peroxide or antiseptic wipes, ointments, adhesive tape

What if I need a ride?

Try to get a ride with a nearby friend or neighbor. If you cannot get a ride, free emergency buses will pick up passengers along the routes near your location and take them to the Reception Center for your area. Bus routes are shown on the Rockland County Evacuation Bus Routes tab of this booklet.
**What is Potassium Iodide (KI)?**

Potassium iodide is an over-the-counter medication that can block radioactive iodine from entering the thyroid gland if there were a serious emergency involving a large release of radioactive material. Potassium iodide is often referred to by its chemical abbreviation, KI.

If Emergency Alert System (EAS) messages direct people in your area to take potassium iodide, follow the instructions on the packaging, or those provided in the EAS message.

During an evacuation, potassium iodide is available at Reception Centers.

To obtain KI prior to any emergency for you and your family:

- **Visit the Rockland County Fire and Emergency Services Office located at 35 Firemen’s Memorial Drive, Pomona, NY 10970** (M-F 9am-5pm). If you have any questions, please call 845-364-8800.
- **KI is also available for purchase at many pharmacies.**
- **Most schools in the Emergency Planning Zone (EPZ) have a supply of KI for school children. Check with your school administrator for specifics.**
- **Reception Centers maintain a supply of KI for evacuees.**

**Recommended Doses of KI for Different Risk Groups**

*For more information on KI, visit Centers for Disease Control and Prevention wwwemergency.cdc.goveradiation/ki.asp*
What if my children are in school?

Officials may relocate children in schools to assigned school reception centers as a precautionary measure, even if there is no evacuation of the general public. Staff have been trained and will travel with students to these school reception centers.

The list below shows the assigned school reception centers for each school within 10 miles of Indian Point. Parents and guardians can pick up their children from these school reception centers. Please check with your child’s school or childcare facility to learn more about relocation planning and parental pick-up plans.

For an up-to-date listing of schools and school reception centers please refer to the “School Reception Centers” link at www.rocklandipready.com

School Reception Centers

BERGEN CATHOLIC HIGH SCHOOL, 1040 Oradell Avenue, Oradell, New Jersey 07649

- Bais Malka (Girls)
- Cornerstone Christian Community School
- Grandview Elementary School
- Hebrew Academy for Special Children

- Willow Grove Elementary School

www.petfriendlytravel.com or  www.petswelcome.com

You should make arrangements in advance to ensure the safety of your pets. If you are directed to evacuate, you will want to take your pets with you. Pets are not permitted in Reception Centers or for your pets, such as boarding kennels, friends or relatives to provide temporary shelters (except for service animals such as seeing-eye dogs). Pet owners are encouraged to explore alternatives to temporary shelters.

If you have livestock or agricultural products, useful information is available from the New York State Department of Agriculture website www.agriculture.ny.gov or call 1-800-554-4501 or call your local Cooperative Extension Office.

We encourage everyone to make other plans for their pets before the emergency. Owners should plan to bring their own supplies, including food, leashes, cages and carriers etc. Trained volunteers may be available to assist owners with pet care and feeding. Please be mindful that space at these locations is limited, so we continue

continued

signs toward Oradell. At first traffic signal, make a right turn onto Pascack Road. Bergen County Vocational Technical High School will be 1/4 mile ahead on the left. Note: Roadway in front of school is divided. Proceed 1/4 mile to first traffic signal (U-turn lane).

BERGEN COUNTY VOCATIONAL TECHNICAL HIGH SCHOOL, Central Technical Education Center, East 285 Pascack Road, Paramus, New Jersey 07652
Directions from Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to the New York State Thruway (Interstate 87/287). Take Interstate 87/287 north toward Albany. Exit on the Garden State Parkway (Exit 14A) toward New Jersey. Travel south on the Garden State parkway to Exit 165 (Ridgewood/Oradell). Exit 165 merges onto East Ridgewood Avenue. (Follow directional signs toward Oradell.) At first traffic signal, make a right turn onto East Pascack Road. Bergen County Vocational Technical High School will be 1/4 mile ahead on the left. Note: Roadway in front of school is divided. Proceed 1/4 mile to first traffic signal (U-turn lane).

DOMINICAN COLLEGE, 470 Western Highway, Orangeburg, NY 10962
Directions from the Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to Exit 6E, Orangeburg Road. Merge onto Orangeburg Road. At second traffic signal, make a left hand turn onto Western Highway. Travel approximately 3/4 mile. Dominican College's Hennessy Center will be on the right.

ROCKLAND COMMUNITY COLLEGE, 145 College Road, Suffern, New York 10901
Directions from North Rockland High School
Travel to intersection of Hammond Road and Suffern Lane (County Route 94). Right turn onto Suffern Lane to Thiells Mt. Ivy Road (County Route 47). Left turn onto Thiells Mt. Ivy Road. Thiells Mt. Ivy Road to Route 202. Right on Route 202 to Route 306. Left on Route 306 to Viola Road (County Route 74). Right on Viola Road to Rockland Community College. Enter the college via the parking area off Viola Road.

SOUTH ORANGETOWN MIDDLE SCHOOL, 160 Van Wyck, Blauvelt, NY 10913
Directions from Felix Festa Middle School
Travel west on Parrott Road (Parrott Road becomes Germonds Road). Travel on Germonds Road to South Little Tor Road (County Route 33). Left on Little Tor Road to Palisades Interstate Parkway. Palisades Interstate Parkway South to Exit 6E (Orangeburg Road). At second traffic signal, make left hand turn onto Western Highway. Travel approximately one and a half miles on Western Highway.
At second traffic signal, make left hand turn onto Erie Street. Parking lot entrance to school will be one and half mile on left. (School is on corner of Van Wyck and Erie.)

ST. JOSEPH'S REGIONAL HIGH SCHOOL, 40 Chestnut Ridge Road, Montvale, New Jersey 07645
Directions from Village of Spring Valley
Travel south on Route 45 through the Village of Spring Valley to New Jersey (Route 45 turns into Chestnut Ridge Road in New Jersey). Once in New Jersey, St. Joseph's Regional High School is approximately two miles ahead on the right.

ST. THOMAS AQUINAS COLLEGE, Route 340, Sparkill, New York 10976
Directions from Palisades Interstate Parkway
Travel south on the Palisades Interstate Parkway to Exit 5N (Route 303 – Orangeburg). Merge onto Route 303 North. At first traffic signal, make a right turn onto Route 340. Travel approximately 1/4 mile. St. Thomas Aquinas College is on the left.

What about facilities such as hospitals, nursing homes and correctional facilities?

Hospitals, nursing homes and other facilities within 10 miles of Indian Point have emergency plans to keep their residents safe, including provisions for transporting residents to host facilities.

If you have a family member in a facility and require information about their emergency planning initiatives, please contact the facility administrator.

What about people with special needs?

If you have a special need, such as mobility impairment, visual or hearing impairment, or need specialized transportation or equipment, prepare an emergency plan with family, friends or neighbors. If necessary, the County will make special arrangements for you.

What about pets and livestock?

If you are directed to evacuate, you will want to take your pets with you. Pets are not permitted in Reception Centers or temporary shelters (except for service animals such as seeing-eye dogs). Pet owners are encouraged to explore alternatives for their pets, such as boarding kennels, friends or relatives outside the 10 mile area.

Limited space may be available at certain reception centers and would be publicized at the time of the emergency. This would be done to accommodate people who cannot make other arrangements for their pets beforehand. Pet owners should plan to bring their own supplies, including food, leashes, cages and carriers etc. Trained volunteers may be available to assist owners with pet care and feeding. Please be mindful that space at these locations is limited, so we encourage everyone to make other plans for their pets before the emergency.

If you have livestock or agricultural products, useful information is available from the New York State Department of Agriculture website www.agriculture.ny.gov or call 1-800-554-4501 or call your local Cooperative Extension Office.

Leave No Animal Behind

- Arrange with friends or relatives to provide temporary shelter for you and/or your pets.
- Make a list of pet-friendly hotels and motels outside your area. (You can look them up online at www.petfriendlytravel.com or www.petswelcome.com)
- Ask your veterinarian and boarding facilities if they provide emergency care and boarding during a disaster. (Also identify an alternate veterinarian or boarding facility outside the 10 mile area.)
Potassium iodide is an over-the-counter medication that can block radioactive iodine from entering the thyroid gland if there were a serious emergency involving a large release of radioactive material. Potassium iodide is often referred to by its chemical abbreviation, KI.

If Emergency Alert System (EAS) messages direct people in your area to take potassium iodide, follow the instructions on the packaging, or those provided in the EAS message.

During an evacuation, potassium iodide is available at Reception Centers.

To obtain KI prior to any emergency for you and your family:

- Visit the Rockland County Fire and Emergency Services Office located at 35 Firemen's Memorial Drive, Pomona, NY 10970 (M-F 9am-5pm), if you have any questions, please call 845-364-8800.
- KI is also available for purchase at many pharmacies.
- Most schools in the Emergency Planning Zone (EPZ) have a supply of KI for school children. Check with your school administrator for specifics.
- Reception Centers maintain a supply of KI for evacuees.

Recommended Doses of KI for Different Risk Groups

What is Potassium Iodide (KI)?

Pet Emergency Kit

Gather these things in advance:

- Your pet's vaccination and medical records together with your veterinarian's phone number in a watertight plastic bag. (Warning: A shelter or boarding facility may NOT take your pet without current vaccinations!)
- Current photographs of you and your pet together.
- Medication your pet is taking.
- Pet food & bottled water for 3–14 days.
- Pet food dishes and manual can opener.
- Cages/carriers for all pets. Carriers must be big enough to allow your pet to stand, turn around and lie down. (Temporary shelters may NOT have cages available, therefore you MUST provide your own!)
- Blankets or towels for bedding and warmth.
- Leashes, harnesses, muzzles (if needed).
- Cat litter, a litter pan and scoop.
- Plastic bags for disposal of waste, paper towels, disposable gloves, disinfectant.
- Treats, toys, brushes, combs.

If you absolutely MUST leave them...

- Put a sign or sticker in a front window identifying all pets inside. Include your name, phone numbers and where you are staying. Include the name and number of a contact outside the area. Put ID tags on all pets.
- Keep dogs and cats in separate rooms.
- Leave as much food & water as you can.
- Open up bags of dry food.
- Fill many large bowls with water.
- Contact authorities and animal rescue groups immediately with information about the location of your animals.

Identify all your pets:

- Microchip your pet.
- Make sure your pet is wearing a collar or harness with identifying tags on it. Include your phone number and an alternate phone number of someone outside your area.
- Put leg bands on all birds and ID tags on all pocket-pet cages.
In an evacuation:

• Be certain that your area is one being ordered to evacuate. Do not evacuate unnecessarily.
• Remain calm, but act promptly
• Do not use the telephone to avoid overloading the system
• Contact neighbors directly to ensure they are aware of the emergency instructions
• Offer a ride to anyone you know who might not have a car
• Close windows and vents in your car and do not use the air conditioning until you have left the area
• Take one dose of Potassium Iodide (KI) if instructed to do so

 Bring with you:

• clothing and blankets or sleeping bags
• prescription medicines
• personal items such as shaving kits, soap and cosmetics
• formula and other supplies for children and infants
• your checkbook, credit cards, cash and important papers
• first aid kit: gauze, peroxide or antiseptic wipes, ointments, adhesive tape

What if I need a ride?

Try to get a ride with a nearby friend or neighbor. If you cannot get a ride, free emergency buses will pick up passengers along the routes near your location and take them to the Reception Center for your area. Bus routes are shown on the Rockland County Evacuation Bus Routes tab of this booklet.

  - Baby monitors

- **PERSONAL HYGIENE ITEMS**
  - Toothbrush/toothpaste
  - Soap
  - Sanitary items

- **IDENTIFICATION AND PERMANENT ITEMS**
  - Medical insurance card
  - Driver's license
  - Birth certificates
  - Social security card

- **EMERGENCY AID**
  - Flashlights with spare batteries
  - Bottled water
  - Blankets

- **PETS**
  - Food, leashes, cages and carriers

- **ADDITIONAL ITEMS**
  - Medicines
  - Prescription medications
  - Pets

---

**How would I be notified?**

- Special emergency sirens that produce a continuous, four-minute tone would be the official source of information about an emergency at Indian Point. If you are located within 10 miles of Indian Point, you would tune to an Emergency Alert System (EAS) radio and television stations to receive an alert. You can also access information about your emergency plan by calling 1-800-572-INFO (4636) or by visiting the website http://www.winny.org.

- How would I find out if a nearby nuclear power plant is affected by an emergency?

  - This planning booklet provides information concerning your area. In addition to the sirens, a high-speed system for emergency alerts is available. The Emergency Alert System (EAS) radio and television stations would be used to announce alerts in advance. EAS stations in this area are announced in advance through local news media.

- How would I be notified of whether or not I am in the evacuation area?

  - From U.S. Route 9W, schools located outside the EPZ will remain in school. Whether or not they are evacuating, schools in the EPZ: Student's who reside within the EPZ will travel with students to this school reception even if there is no evacuation of the general public. Check with your child's school to learn more about continued operations.

- Make sure your pet is wearing a collar or harness.

- If you have livestock or agricultural products, useful kennels, friends or relatives outside the 10 mile area. Explore alternatives for your pets, such as boarding facilities or day care centers. They may elect to have schools in the EPZ:

## Emergency Supplies Checklist

Review the checklist for items you may want to have on hand if you are instructed to Shelter-In-Place or Evacuate. Check the items you may need, and add any special items that are not listed. If you need help finding a place to stay during an evacuation, people staffing the Reception Centers will help you.

### MEDICAL ITEMS
- Medicines
- Prescription information (doctor, name of medicine, name of pharmacy)
- Eyeglasses or contacts
- Dentures
- Special diet foods

### BABY SUPPLIES
- Baby food
- Formula
- Diapers/baby wipes
- Toys

### CLOTHING
- Clothes for three days
- Shoes

### PERSONAL HYGIENE ITEMS
- Shaving items
- Soaps
- Toothbrush/toothpaste
- Sanitary items

### MONEY
- Cash
- Checkbook
- Credit cards

### IDENTIFICATION AND IMPORTANT PAPERS
- Drivers license
- Current photos of your children

### BEDDING
- Two blankets per person or sleeping bags

### MISCELLANEOUS
- Portable radio with spare batteries
- Flashlights with extra batteries
- KI-potassium iodide tablets
- Important phone numbers
- This planning booklet
- Bottled water
- Medical insurance card
- Mobile charging device

### OTHER EMERGENCY ITEMS
- __________
- __________

### Important Papers

**How would I be notified?**

How would I find out or unsubscribe at any time. It is a tool NY-Alert could be used to notify and

NY-Alert online at [NY-Alert website](https://www.nysparks.com/nyalert).
How are emergencies at nuclear power plants classified?

The federal government established four classifications for emergencies at nuclear power plants. In order from the least to most serious, they are:

> **An UNUSUAL EVENT** indicates a potential problem with the operation of the plant. Officials are notified, but no public action is necessary.

> **An ALERT** indicates an event that could reduce the plant’s level of safety. Any release of radioactivity would be a small fraction of the federal guidelines. Residents should monitor the situation on television or radio.

> **A SITE AREA EMERGENCY** indicates a problem that substantially reduces the plant’s level of safety. Releases of radioactivity outside the plant site would not be expected to exceed federal guidelines. Residents should monitor the situation on television or radio.

> **A GENERAL EMERGENCY** indicates a problem affecting safety systems in the plant that could lead to a release of radiation that would exceed the federal guidelines outside the plant. Protective actions may be ordered for some areas. Residents should monitor the situation on television or radio.
If you hear the emergency sirens, tune in your
radio to one of the emergency
radio stations listed below for
information on reception center locations.

Reception center availability may vary depending on conditions.
Residents should listen closely to local radio stations for
information on reception center locations.
